

23 courses on:

Intro to Data and Data Science
Microsoft Excel
Probability and Statistics
Mathematics
Tableau
Power BI
SQL
SQL Integrations
Python Programming
Git and GitHub
R Programming
Machine Learning in Python
Deep Learning with TensorFlow

CERTIFICATE No: 21171679

CERTIFICATE OF COMPLETION

Uzair Ahmed

has successfully completed the 365 Data Science Program

365 Data Science

365 Data Science Program is a comprehensive 23 course online program covering Fundamentals of Data Science (introduction to data science, Excel, mathematics, statistics, probability, Power BI and Tableau), Programming Tools; (SQL, Python, Git & GitHub and R programming) and Advanced topics (Machine and Deep learning, SQL + Tableau + Python). To be awarded certification, students must complete 18 required courses plus at least 1 specialty elective. Upon completion of the 365 Data Science Online Program, the designee is considered to be qualified for work as a Data Scientist.
